Sync real FortyGuard data for this store

Using simulated data (click "Sync" for live readings).

121

Store Withstanding Score (days, summed)

2

Products in this Store

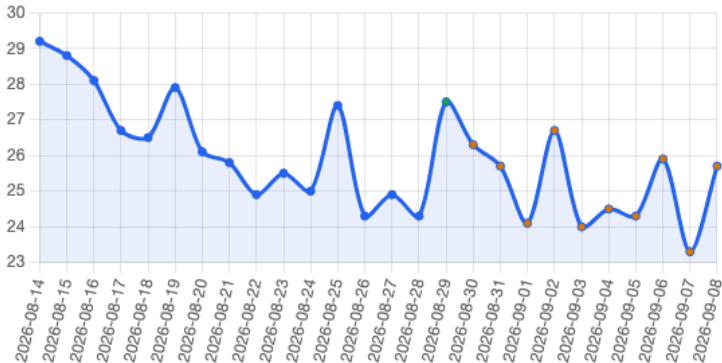

1

Products at Risk (< 2 days remaining)

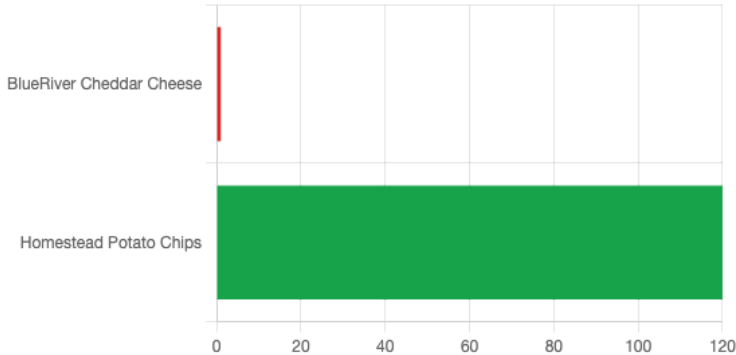

16.5

Today's Ambient Temp (°C)

Store Temperature Trend (last 15 & next 10 days)

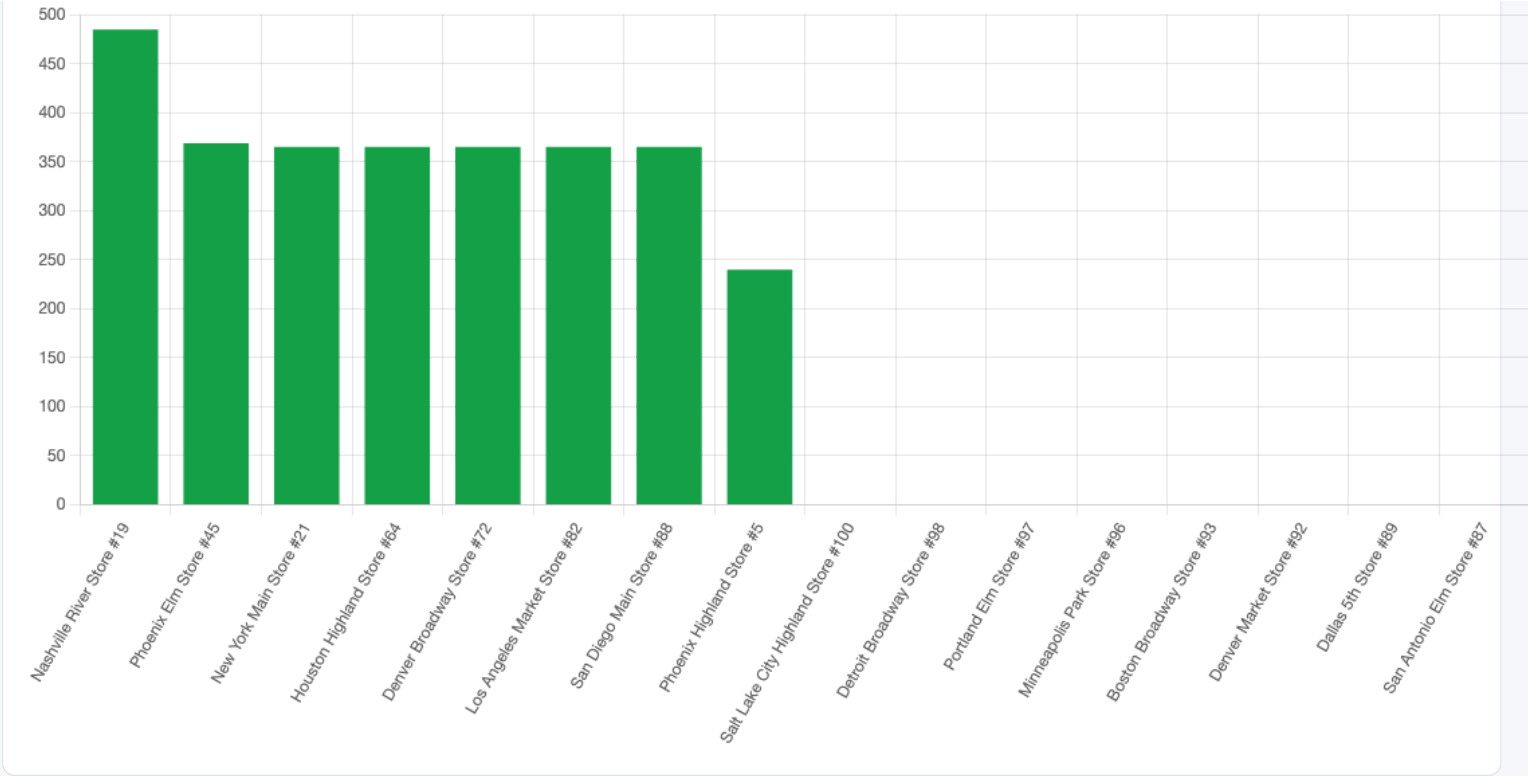

Product Withstanding Days (this store)

Top / Bottom Stores by Withstanding Score

Computed using simulated environmental data for speed; use "Sync real FortyGuard data" above for a live reading on the selected store.

Aisle Position Heatmap (selected store)

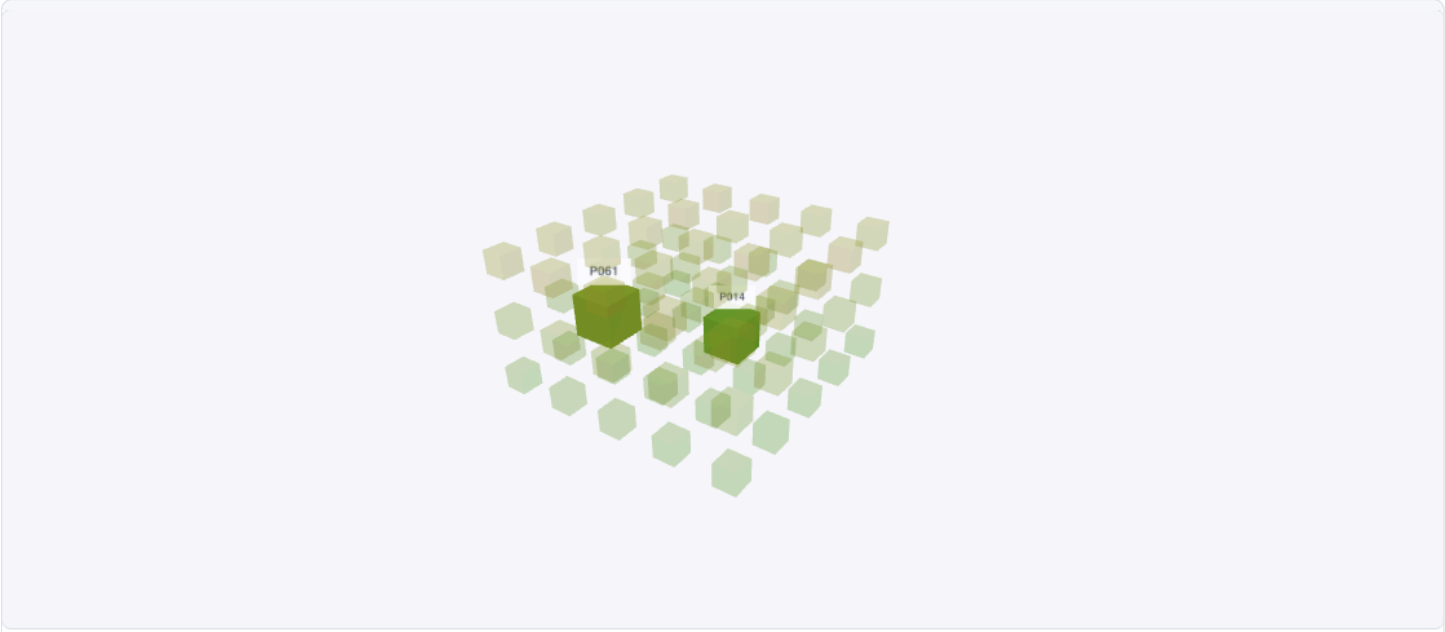

Each grid is one shelf level (Z). Cell color = effective temperature today. Product codes shown where placed.

3D Aisle View (real placements, neighbor influence & temperature)

Drag to rotate, scroll to zoom. Solid cubes are occupied positions; faint cubes are empty. Click a product cube to inspect it and highlight its neighbors. Use the day slider (the 4th dimension) to scrub through the last 15 and next 10 days.

Day: 2026-08-29

Click an occupied cell (solid cube) to inspect a product and its neighbors.

Product Placements

Product	Category	Price	Ideal Temp (°C)	Position (x,y,z)			Withstand Days	Status	Reposition
BlueRiver Cheddar Cheese	Dairy	\$8.36	4	2	1	0	1	At Risk	Apply
Homestead Potato Chips	Snacks	\$21.83	20	1	3	1	120	Safe	Apply

Future Placement Suggestions

Product

PurePantry Ice Cubes (Frozen)
